

**NOTICE OF AVAILABILITY OF A DRAFT MITIGATED NEGATIVE DECLARATION
AND NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION
For Capuchino High School Athletics Complex Project
Public Review Period: 30 days**

Notice. Notice is hereby given that the San Mateo Union High School District, acting as lead agency under the California Environmental Quality Act, intends to adopt a Mitigated Negative Declaration for the subject project. The project applicant is the San Mateo Union High School District.

Description. The San Mateo Union High School District proposes to relocate and improve a number of athletics facilities at the Capuchino High School campus at 1501 Magnolia Avenue in the southern area of City of San Bruno, in San Mateo County. The improved and relocated facilities include the baseball field, softball field, practice field, tennis courts, and swimming pool. All of the new fields would have artificial turf, and lighting and public address systems would be added to the softball field and baseball field. In addition, lighting would be added to the existing swimming pools and some of the new tennis courts. Some grading would be required.

Potential Impacts. The proposed project has the potential to impact the following environmental factors: noise, biological resources, cultural and tribal resources, hydrology and water quality. With implementation of the mitigation measures identified in this document, potential significant impacts would be avoided, minimized, reduced, or rectified to a level that is less than significant. The project would not make a cumulatively considerable contribution to an existing cumulative impact related to similar projects within the region.

Environmental Review. The San Mateo Union High School District, together with its consultants, has prepared an Initial Study and proposed draft Mitigated Negative Declaration for the subject project pursuant to the California Environmental Quality Act. The document is available for review at the following locations:
